

## HORTICULTURE CERTIFICATION

The **Horticultural Certification** curriculum develops practical and technical proficiency in horticultural-based applications. Equipped with these **TOOLS FOR LIFE**, graduates of the course are uniquely qualified to achieve rewarding careers in disciplines ranging from architecture and urban design to food supply and conservation.

Snap-on has created this horticulture certification course using the broad line of high quality Bahco® pruners (secateurs) and loppers. A wide spectrum of industries are involved in horticulture, with a growing number of career opportunities for those trained and educated in the safe and resourceful use of horticultural tools.

### COURSE CONTENT INCLUDES:

- Safety objectives
  - Protective guidelines for using, storing and carrying tools
- Pruner and lopper design
  - One-handed versus two-handed models
  - Features and sizes
  - Blade and grinding technologies
- Applications
  - Environment and material size
  - Cutting guidelines
- Tool maintenance

## BUILDING TOOLS FOR LIFE

Snap-on certifications provide a return on technical education investment through hands-on training and state-of-the-art tools and equipment. The **Horticulture Certification** connects directly to the following academic subject areas:

- Agribusiness & Science Technology
- Horticulture

Students earn Snap-on certifications as proof of achievement. These NC3 stackable credentials increase employment potential and on-the-job productivity in industries such as:

- Agriculture
- Floral
- Landscaping
- Parks and Recreation
- Turf Management
- Viticulture
