New products from Snap-on will “clip” shop time and work for busy techs

KENOSHA, WI (July 28, 2023) – These new products from Snap-on will move work along at a faster clip as handy productivity solutions for busy techs.

The new **Snap-on® ECPRJ032 300 Lumen Rechargeable Lightweight Pocket Light** has a large, slim pocket clip with magnet allowing it to be adhered to just about any surface and making it easy to position it for the task at hand. With the capability to shine 300 lm into a workspace, this light runs more than 2 hours on high and 18 hours on its low setting. Even though this light is super slim and weighs only ounces, it has a sturdy exterior that is shock resistant.

Snap-on has introduced two new flexible tool clips that come in large and small versions. The large **FLEXCLIPLG** and small **FLEXCLIPSM Flexible Tool Clips** are sold in pairs and magnetically mount to toolboxes, lifts, and car hoods. They also come with integrated screw mounting holes for attaching to non-ferrous surfaces and peg boards to hold flashlights, ratchets, extensions, pocketknives, and other tools. These clips have flexible jaws that securely hold items of varying shapes and sizes and are made to withstand harsh shop chemicals. The unique interlocking design makes it easy for multiple clips to be connected and an integrated pull-tab allows for quick removal from metal surfaces.

Find out more about these clips and other Snap-on tools by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com, or calling toll-free 877-SNAPON-4 (877-762-7664).
