John Bean Tru-Point ADAS 3D Positioning Accessories Honored with Automechanika Innovation Award

Conway, AR – Sept. 16, 2024 – The John Bean® Tru-Point™ 3D Positioning of ADAS Calibration accessories, including the advanced TGT-05 and BKT-16 accessories, were awarded the Workshop and Service Solutions Innovation Award 2024 at Automechanika Frankfurt.

“We are proud to share that the John Bean Tru-Point 3D Positioning of ADAS Calibration accessories have been judged as the unsurpassed winner of 52 entries in the workshop and service solutions category,” said Mariana Montovaneli, director of marketing for John Bean. “Earning this prestigious award is an exciting moment for all of us and is a reflection of the expertise and dedication of our team.”

The industry-leading *John Bean [Tru-Point](#)* advanced drive assistance system (ADAS) calibration tool uses advanced camera and target technology to ensure precise placement of ADAS targets and fixtures. The award-winning accessories include the TGT-05 that enhances 360-view calibrations for manufacturers using vinyl mats, a significant improvement over traditional methods, and the BKT-16 that further advances ADAS accessory placement for blind spot calibrations, streamlining the calibration process.
