New Snap-on Software Release Gives Technicians the Power to Be their Best

LINCOLNSHIRE, III., Oct. 2, 2024 – With automotive technology constantly changing, professional technicians who upgrade to the Snap-on® fall diagnostic software release will benefit from access to an array of resources, including systems, tips and techniques, tests and guided workflows.

“No matter which Snap-on diagnostic platform a technician uses, keeping their software up to date is the only way to get the most out of their tool to handle the various problems that come their way,” said Helen Cox, director, marketing and client services, Snap-on Diagnostics. “It is especially important given all the new technology, such as hybrid and electric cars, advanced driver assistance systems (ADAS) and vehicle security requirements, which technicians face every day.”

Snap-on provides more coverage than any other diagnostic tool in the industry with the breadth and depth of manufacturer-level capabilities that shops need for general and collision repair.

The fall release coverage and exclusive guided component tests highlights include:

- Coverage increased to 49 makes, including 16 Asian, 23 domestic and 10 European with the introduction of Tesla
- 2024 model year updates for Chevrolet, Genesis, GMC, Hyundai, Infiniti, Kia, Land Rover, Lexus, Mazda, Mitsubishi, Nissan, Subaru, Tesla, Toyota and Volvo
- 2024 code scan and clear for all makes
- New models include Tesla S, X, 3 and Y, Alfa Romeo Tonale as well as Lexus NX250, NX350, NX450+ and RX500H models
- Large content additions for Ford and GMC cars and light duty trucks
- All the coverage and tests added from previous releases

Current software means Snap-on tools can support uninterrupted access to industry exclusive features to streamline jobs such as the Fast-Track® troubleshooting workflow, SureTrack® Real Fixes & Top Repairs graph, Security Link™ and other time-saving features.

With the fall software release, Snap-on expands multilingual support for features and free training, giving technicians the power to be their best.

- Select between English and seven different languages, including French and Spanish, to view or print vehicle system reports when using Snap-on Cloud
- Spanish language available on the SOLUS+™ with purchase of the fall software upgrade
- Online training support in English and French for all current products plus Spanish for APOLLO+

Software release coverage detail is available in the online vehicle coverage guide at snapon.com/vcguide.

For more information about Snap-on products and industry exclusive features, contact a participating Snap-on Franchisee or other sales representative, or visit snapon.com/diagnostics.

About Snap-on

Snap-on Incorporated is a leading global innovator, manufacturer, and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks including those working in vehicle repair, aerospace, the military, natural resources, and manufacturing. From its founding in 1920, Snap-on has been recognized as the mark of the serious and the outward sign of the pride and dignity working men and women take in their professions. Products and services are sold through the company's network of widely recognized franchisee vans, as well as through direct and distributor channels, under a variety of notable brands. The company also provides financing programs to facilitate the sales of its products and to support its franchise business. Snap-on, an S&P 500 company, generated sales of \$4.7 billion in 2023, and is headquartered in Kenosha, Wisconsin.
