Snap-on Launches New Brake Pin Punch for Quick and Easy Brake Service on Toyota® Trucks and SUVs

KENOSHA, Wis. (June 17, 2024) -- Snap-on has introduced a new Snap-on® Brake Pin Punch designed specifically for removing seized brake pins in various Toyota® trucks and SUVs. This PHG90B punch allows the vibration of an air hammer to be directed to the heads of seized brake pins to break them loose and drive them free to breeze through service and routine brake maintenance.

Manufactured from heat-treated alloy steel, this American-made Brake Pin Punch promises durability while effortlessly handling brake pin removal in Toyota®, Tacoma®, Tundra®, Sequoia®, and 4Runner® model vehicles, guaranteeing years of reliable service.

For more information about the new PHG90B or other Snap-on tools and products, contact your participating Snap-on franchise or visit www.snapon.com.

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer, and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks including those working in vehicle repair, aerospace, the military, natural resources, and manufacturing. From its founding in 1920, Snap-on has been recognized as the mark of the serious and the outward sign of the pride and dignity working men and women take in their professions. Products and services are sold through the company's network of widely recognized franchisee vans, as well as through direct and distributor channels, under a variety of notable brands. The company also provides financing programs to facilitate the sales of its products and to support its franchise business. Snap-on, an S&P 500 company, generated sales of \$4.7 billion in 2023, and is headquartered in Kenosha, Wisconsin.
