## **View APOLLO+ Training Videos on Snap-on Website, YouTube Channel**

**LINCOLNSHIRE, Ill., Oct. 24, 2024** – Snap-on® has added eight APOLLO+™ training videos to its [website](#) and YouTube [channel](#) to help professional service technicians navigate features and functionality to get the most out of their new scan tool.

Training videos are offered as short instructional sessions on specific topics, allowing technicians to quickly get answers on different aspects of tool operation. APOLLO+ video topics include introduction and navigation, vehicle ID and scanner codes, Fast-Track® Intelligent Diagnostics, scan data functions, functional tests, quick lookups, OBDII, and previous vehicles and data.

The videos provide quality product training that is available to technicians free of charge, 24 hours a day, seven days a week, when it is most convenient for them. They can revisit the training sessions as often as necessary to learn at their own pace and comfort level.

The [APOLLO+](#) scan tool is a diagnostic assistant, ready with guidance and capabilities for every repair, from the routine to the mysterious. With Fast-Track Intelligent Diagnostics troubleshooting, a patented exclusive feature that filters out complexity and presents one filtered workflow, technicians have everything they need to get through the job.

The experienced-based software in APOLLO+ shows how other technicians have tackled the same problems in the bay. Verified Real Fixes are harvested from billions of successful repair records. The patented Smart Data automatically selects only the PIDs related to the code that the technician is working on and flags which ones are out of range at idle. Instead of hundreds of possible readings, it shows only the ones that matter.

For more information about Snap-on, contact a participating Snap-on Franchisee or other sales representative, or visit [snaon.com/diagnostics](https://snaon.com/diagnostics).

### **About Snap-on**

Snap-on Incorporated is a leading global innovator, manufacturer, and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks including those working in vehicle repair, aerospace, the military, natural resources, and manufacturing. From its founding in 1920, Snap-on has been recognized as the mark of the serious and the outward sign of the pride and dignity working men and women take in their professions. Products and services are sold through the company's network of widely recognized franchisee vans, as well as through direct and distributor channels, under a variety of notable brands. The company also provides financing programs to facilitate the sales of its products and to support its franchise business. Snap-on, an S&P 500 company, generated sales of \$4.7 billion in 2023, and is headquartered in Kenosha, Wisconsin.
