Car-O-Liner CTR9 Spot Welder, CDR1 Dent Repair Workstation Approved for Use on BMW Vehicles

CONWAY, Ark. – March 10, 2025 – BMW[®] has approved the use of two innovative Car-O-Liner[®] products, the CTR[™]9 fully automatic resistance spot welder and the CDR[™]1 cosmetic dent repair workstation, for service and repair procedures performed on *BMW* vehicles worldwide.

The <u>CTR9</u> fully automatic welder features a revolutionary lightweight transformer gun with a 355° swivel handle and an ergonomic grip design, allowing users to maintain optimal working positions for any task. The gun is supported by a telescopic arm made of durable, lightweight extruded aluminum, which can be easily adjusted both vertically and horizontally.

Designed as an all-in-one solution for light cosmetic dent repair, the <u>CDR1</u> is a versatile, value-packed repair cart that enables technicians to efficiently perform professional repairs on small to medium autobody damage.

"We are honored that the industry-leading Car-O-Liner CTR9 and CDR1 have been approved for use on BMW vehicles," said Tim Garner, national accounts and OEM sales manager for *Car-O-Liner*. "This endorsement underscores the superior quality and performance of Car-O-Liner equipment, making them indispensable, productivity-enhancing solutions for professional workshops."

For more information about the *CTR9*, *CDR1* and the full range of *Car-O-Liner* equipment, visit Car-O-Liner.com.
