Latest Snap-on TSS Product Solutions at NADA

Conway, Ark – Jan.21, 2025 – Snap-on[®] Total Shop Solutions (TSS[™]) will have an extensive presence at the 2025 National Automobile Dealers Association[®] (NADA[®]) Show held Jan. 23-26 in New Orleans. Products from John Bean[®], Challenger Lifts and Pro-Cut[™] will be on display and available for demonstrations at the Ernest N. Morial Convention Center.

"We are proud to lead the way in providing innovative and efficient automotive repair solutions, and we are eager to showcase the latest offerings from Snap-on TSS brands at NADA," said Mariana Montovaneli, director of marketing for Snap-on Equipment. "Our dedicated teams collaborate closely with customers to ensure Snap-on TSS products drive business success. We welcome all NADA attendees to see these advanced product solutions in action."

The new *John Bean* [V4400 Commander](#) will be showcased at the Stellantis[®] (#250) booth as well as the Toyota[®] (#6347) booth. The V4400 is a next-generation wheel aligner designed to transform shop productivity and flexibility. It incorporates cutting-edge technology to streamline operations, minimize setup times and improve accuracy, making it an indispensable tool for today's shops. Visitors to the *Toyota* booth can also experience the *John Bean* [14K Scissor Alignment lift](#) virtually.

The [Pro-Cut X19](#), the world's first cordless on-car lathe, will be available for on-site demonstrations at the *Toyota* booth. The X19 represents an innovative advancement in on-vehicle rotor matching, featuring a computer system that provides disc tracking, maintenance alerts, variable speed control and a sophisticated battery management system.

Pro-Cut's new [X1 truck lathe](#) will be exhibited at the Ford[®] booth (#2550). The X1 is an on-truck lathe to machine rotors on heavy-duty trucks and buses. In addition, the [Pro-Cut X15](#) on-car brake lathe will be at the *Stellantis* booth. The X15 is the first rotor matching system in the world to be driven by a 48 volt DC motor, allowing for smooth operation, tighter run-out tolerances and superior surface finishes.

A mobile column and end lift adapter from Challenger Lifts will be on site at the *Ford* booth, while the Challenger Lifts [CL12 series](#) 12K Heavy-Duty Two-Post Adjustable Lift and two mobile columns will be showcased at the *Stellantis* booth. Additionally, NADA attendees can virtually view the Challenger Lifts [10K Versymmetric[®]](#) Two-Post Adjustable Lift and the [EW10 series](#) 10K Wide Inground Lift at the *Toyota* booth.

About Snap-on Total Shop Solutions

Snap-on Total Shop Solutions is a family of Snap-on brands that brings together best-in-class automotive repair products. From wheel balancers, wheel aligners and diagnostics, to brake lathes, automotive lifts, and collision repair, Total Shop Solutions offers a broad range of innovative products to outfit your shop floor to ceiling.
