SUN Collision to Showcase Shop Management Integration at the NORTHEAST Show

SAN DIEGO, Calif., March 3, 2025 - SUN® Collision will showcase its newly integrated shop management solution at the NORTHEAST Automotive Services Show, highlighting how its award-winning collision repair software enables auto body shops to manage all aspects of their business on a single platform. NORTHEAST, the largest show of its kind tailored to the automotive and collision repair world, is set for March 14-16 at the Meadowlands Exposition Center in Secaucus, New Jersey.

Attendees are invited to visit the SUN Collision booth #635 to learn how the integration enables a one-stop solution for auto repairs, customer service and business management. SUN Collision Repair Information is now fully compatible with Mitchell 1's Manager® SE shop management software and the Snap-on ShopKey® shop management solution. SUN, Mitchell 1 and ShopKey are part of the Snap-on Total Shop Solutions family of brands.

"This integration is a game-changer for shops that handle both collision and mechanical repairs," said Chris Bonneau, business manager for SUN Collision. "With this powerful combination, shops will spend less time on paperwork and more time fixing cars. It takes the headache out of manually tracking business operations, from estimates through invoices, so shops can get vehicles back on the road faster, in safe operating condition."

The shop management software, tailored for mechanical repairs, includes the industry's widest selection of electronic parts catalogs, an interactive work-in-progress dashboard, over 180 integrated reports, plate-to-VIN decoding and mobile digital inspections. Additionally, it offers integrated communication tools for appointment scheduling, approvals and invoicing.

Show attendees will also learn how SUN Collision Repair Information provides easy access to both OEM collision and mechanical repair data through a single login. With on-demand access to current repair specifications and procedures, [SUN Collision](#) supports all makes and models, including most electric and hybrid vehicles, and those equipped with advanced driver assistance systems (ADAS).

NORTHEAST is presented by the Alliance of Automotive Service Providers/New Jersey (AASP/NJ). For more information or to register, visit www.aaspnjnortheast.com.

ABOUT SUN COLLISION

SUN® Collision Repair Information, a brand of Snap-on, Inc., provides complete, accurate OEM data for collision and mechanical repairs that auto body shops can trust to fix any vehicle with maximum efficiency. Powered by its exclusive 1Search Plus search engine, the online software makes it quick and easy to access current repair procedures, diagrams and specifications for all makes, including the

majority of Electrical Vehicles on the market and vehicles equipped with Advanced Driver Assistance Systems (ADAS). For information about SUN Collision and its products, call 877-840-1973 or visit suncollision.com.
